The Office of Thomas D. Nichols M. D. is committed to protecting the medical identity of its patients. Medical identity theft is a potential problem. It can lead to inappropriate medical care when incorrect information is included in the patient's medical record, as well as cause financial problems for the patient. To protect our patients the Federal Government requires that we require a Photo ID (a current Driver's License, State issued ID card, etc.) Social Security Card, and any insurance cards to be copied for each patient's chart. This also includes cash paying patients. If the patient is a minor we will require a Photo ID from the parent or Guardian of the child before being seen. This is to protect our patients and this office. If you have any questions please feel free to ask at anytime.

Signature of Patient
